■ Firm your skin.

■ Diminish
the appearance
of wrinkles.

■ Redefine the oval

Around the age of forty, collagen III content diminishes (collagen found in young skin that is responsible for firmness). The dermis becomes thinner, skin slackens and facial contours are less distinct. Wrinkles start to appear.

At the cutting-edge of scientific advances, the COHÉRENCE skin care range combines collagen III accelerating vectors with hyaluronic acid, a powerful smoothing and replumping active ingredient, for intense firming and wrinkle correction action.

A programme of complementary skin care to act on the appearance of wrinkles and firmness.

PREVENTION & CORRECTION OF EARLY WRINKLES

INITIATIC ENERGIZING SKIN CARE

VOLUME CORRECTION & LIFTING

LIPOFILLING LIFTING VOLUME-RESTORING SKIN CARE

- Help restore and redefine facial volumes.
- Help strengthen and replump skin.

One of the keys to youth is harmonious facial volumes. The breakdown of adipose tissue and the dermis, which are veritable skin "mattresses", leads to a loss of volume that accentuates the appearance of wrinkles and weakens the contours.

LIPOFILLING is an ultra efficient dermo-cosmetic solution that lies in the combination of a redensifying resin, volumizing peptide and lifting proteins to restore youthful volumes and oval to the face.

Complementary volume-boosting skin care products

- **Redefine** skin texture.
- **Smooth** and unify the skin.

Age, sun exposure, lifestyle (tobacco, stress, lack of sleep, unhealthy diet etc), all these natural phenomena and daily assaults encourage the appearance of skin flaws that alter its luminosity.

Beautiful skin is skin that is luminous and even.

In order to maintain this fragile harmony, LIERAC Laboratories have created LUMINESCENCE SERUM illuminating serum complexion correction, a concentrate of antioxidant active ingredients and new generation optical pigments capable of revealing the skin's original luminosity and diminishing minor skin flaws (pigment spots, redness, pores etc).

This universal serum acts both on the surface and deep down to instantly reveal skin beauty.

At all ages, dehydrated skin is skin that lacks moisture. It feels tight and uncomfortable and the visible signs of skin aging appear rapidly. The water channels that ensure constant water flow and its diffusion into all skin layers are deregulated by environmental assaults.

Derived from these discoveries, the HYDRA-CHRONO+ range helps reprogramme hydration deep down and on the surface in order to protect skin and preserve a youthful appearance. According to the season, your age or your type of skin, all that's left to do is "adopt" your texture and transform daily grind into life seen through rose-coloured glasses...
